1. Make a Call:

- Phone must be used outside, away from trees and tall buildings
- Rotate antenna and extend it upwards
- Power-on phone by pressing red **Power** key
- Phone will display *"Registered"* then *"Iridium"* when it is ready to place a call
- Dialing Sequence: 00 + Country Code + Telephone Number
- Enter phone number then press **OK** key to initiate call.
- Press and hold **OK** key to end the call.

2. Answer a Call:

- Rotate and extend antenna
- Press **OK** key to answer call
- Press **OK** key again to end the call

3. Retrieve Text Messages:

- Press the **Message** key
- Scroll to *Received Messages* and press **OK** to select
- Text messages can be sent to your phone through email, via http://messaging.iridium.com website and as an SMS from certain phones. Consult with your local dealer for more information.

4. Retrieve Voicemail Messages:

- Press the **Message** key
- Press the **OK** button to select *Call Voicemail*
- When prompted, enter your Iridium phone number and voicemail password
- If the phone displays *No Number Available,* dial 00-8816-62990000 and follow the prompts

5. Add a Phone Number to Memory:

- Press **M+** key
- Press **OK** to select *Add to Phone Memory*
- Enter phone number (00 + Country Code + Phone number)
- Enter a name to be associated with the phone number
- Enter a number between 1 and 99 to assign the phone number to a location in the phone book

6. Dial a Phone Number Stored in Memory:

- Press **Quick Access** key
- Press **OK** to select *Find Name*
- Enter one or more letters of the entry and press **OK**
- Scroll to the entry you are looking for and press **OK** to dial

7. Charge the Phone:

- Power adapter plugs into port on lower left side of phone.

8. Troubleshooting, etc.

- Keeping the phone's battery charged ensures that the phone is ready for use when needed. For maximum battery performance, try to allow the phone's battery to discharge completely before fully re-charging.

- If the phone's display shows 'Insert Card', check to make sure that the phone's SIM card is locked in place. This can be checked by removing the battery and ensuring that the SIM card tray is securely positioned.

- Protect the antenna by stowing it in the 'down position' when not in use. (antenna not extended and rotated back behind phone)
