Special Note (for v5.0.7):

1. *Inmarsat LaunchPad v5.0.7 has undergone some extensive changes for HDR integration owing to which it cannot be installed directly over v5.0.5 with older User Data.*

2. *We advise that, LaunchPad users should first* **note down the custom Data Icons** *and their configurations along with User added APN in* **v5.0.5***.*

   *Steps:*
   a. Click on the **Data** icon:

   Data

   b. The Connection control panel is displayed with the data connections available with your terminal model and subscription:

   c. Click on **View all Data connections on terminal**. Details of open connections display beneath the connection icons:

   Note the APN and other configuration settings.

3. *Install v5.0.7 of the Inmarsat LaunchPad.*

Select No

4. ***Create Custom Data Icons*** *and* ***APN*** *based on their* ***earlier*** *v5.0.5 data noted.*

   Select **LaunchPad services > Data Connection Options** (or click on **Advanced** in the Connection control window). The **Connections Tab** screen is displayed:
